Swivel Appliance and software downloads

Overview

NOTE: we no longer provide download links on the Knowledge Base for appliance updates and core Swivel software. If you need to get copies of these, please contact your Swivel Secure reseller. Resellers please contact your Swivel Secure channel manager.

The downloads available from this page are primarily for use with the Swivel Appliance.

For integration downloads, please visit the specific wiki pages. To receive news on updates see Contact Details. For an overview on which upgrade path to take see Upgrade.

Appliance Patches

Upgrades the hardware or virtual appliance

Patch File	Version	Prerequisites	Description	Instructions
patch.2.0.16.part.patch	2.0.16	Appliance build version 2.0.12 or greater	Upgrade appliance build from version 2.0.12 - 2.0.15 to 2.0.16	
patch.2.0.14.full.patch	2.0.14	Appliance build version 2.0.9a - 2.0.12	Upgrade appliance build from version 2.0.9a to 2.0.14	

Swivel Patches

Upgrades the Swivel version on the hardware or virtual appliance (appliance patch may need to be applied first).

These patches are for single appliances and Active/Active builds only. If you are on an Active-Passive build or Enterprise (4 Appliance) build or if you are not sure what build you are on, contact your reseller or support@swivelsecure.com for advice on upgrading.

Patch File	Version	Prerequisites	Description	Instructions
