- 4 Solution

## Overview

The user enters a correct 4 digit PIN to retrieve the OTC but cannot login

## Prerequisites

PINsafe 3.x

iPhone PINsafe Applet

## Symptoms

User cannot login, the following RADIUS messages may be seen:

**RADIUS: <0> Access-Request(1) LEN=85 x.x.x.x:35989 Access-Request by username Failed: AccessRejectException:**

## Solution

The user needs to enter the 4 digit OTC plus the digits listed after, including the comma. For Example:

8478,83
