GSM Modem FAQ

For further information see GSM Modem How To Guide

GSM Modem FAQ

Q). Where are the XON/OFF settings

A). This is the Software flow control

Q). How many GSM Modems can be used

A). One per appliance, although the nport ethernet port may allow more than one, or multiple SMS gateways can be used

Q). Are GSM Modems supported on V3 Appliances?

A). We do NOT support modems unless they have the MOXA ethernet to serial converter. With the MOXA converter they can have a GSM modem, and they can have it on hardware or virtual.

Java Comms API

Q). Is the Java Comms API installed on the appliance?

A). Yes
