# **Security Strings regularly resent**

## **Contents**

- 1 Overview2 Prerequisites3 Symptoms
- 4 Solution

#### **Overview**

The user is regularly resent their security strings

## **Prerequisites**

PINsafe 3.x

# **Symptoms**

Each time PINsafe synchronises, the security strings are sent out to the user.

#### **Solution**

Usually this is cause by multiple PINsafe servers synchronising, and each having different transport details for users. See Security Strings Resent
